

# NE-2

# KOBLA NON ELECTRIC BLASTING MACHINE

*Thank you for your choosing our new Non Electric Blasting Machine NE-2.  
This product is Non-Electric Blasting Machine, which is maximized  
it's convinience to use and performance.*

*Please carefully read this operation manual to get the most excellent high performance.*

## ☀ Name of ELEMENTS.

## ☀ Advantage of the product.

1. This is water and explosion proof, and drstically isolated product.
2. Precision machining spark plug is always provided with it's standard.
3. Visible in direct sunshine and Easy to use, Simple structure.
4. Perfectly water proof and isolated by a mobil protect case, made of strong material,with latching device for the safety.
5. Being assembled with a strong die-cast aluminum case, it has a elegant color and solid design.

## ☀ How to use

1. Insert a inspected tube into the hole of the spark plug.
2. Press the charging switch for 1 second, start to flush the ready to fire lamp for the blasting.
3. Press the Blasting switch while pressing the charging switch to blast.

## ☀ Notice

1. Replace the battery if charged shlowly. ( Alkaline Battery recommended )
2. Because of it's precision electronic components, Please keep it in a cool and dry place after using.
3. Being composed of precision digital circuits, due to high-tension current and voltage,  
it is very dangerous to disassemble in operation.

## Responsibility

1. This product is a high precision electronic tool to ignite the non-electric tube. However, we are not responsible for bad tube, bad explosive, bad blasting wire connection, and damage from the blasting.
2. Check in advance if the product may work correctly, we are not responsible for the damage during the normal operation.
3. Must be well informed of the instruction manual before operating this product, and licenced blasters are only allowed to operate it. (After operation, keep "KEY" seperately away from the product)
4. We are not responsibility for any damage and/ or accidents due to user's random disassembling and / or remodeling.

## Quality assurance and warranty

1. Products are covered by 12 months warranty form the purchasing date.
2. Products are covered by free warranty in normal operation, but in case of user's random disassemble, random remodeling etc, it shall not be covered an treated by paid-in repair.

## Specifications

Product	NON ELECTRIC BLASTING MACHINE.	Model. No	<b>NE-2</b>
Power	9V ALKALINE BATTERY	Output voltage	2500V DC
Charging time	1 [ sec ]	Size	66× 100× 46 [mm]
		Weight	408[g]

----- Cutting Line -----
