Dòng SLB Silver

For when you really need a lift

Ingersoll Rand SLB Silver Series lever hoists offer the ultimate in performance, durability, and safety for a variety of demanding applications. The high-strength, all-stamped steel construction offers decreased weight and better impact resistance. The automatic inertia brake engages if load is applied in free-chain mode, helping minimize operator setup error.

Double chain guides for proper load chain tracking and smooth operation around load sheave

CE Certified; hoists meet or exceed regional requirements including ASMEB30.21, HST-3M

Open frame design for easy cleaning and inspection

Encased and retained roller bearings for increased efficiency and ease of maintenance

Premium grade alloy load chain

Hardened swivel-latch hooks

Nickel / chrome-plated exterior and zinc-plated frame components for increased corrosion resistance

Double reduction gearing for superior spotting characteristics and low handle effort

Deep lug knobs for easy one-handed operation with or without gloves

Short handle and stroke allows 360-degree operation for rigging in tight spaces

SLB Silver Series lever hoists are ideal for these applications:

- Offshore drilling rigs
- Oil refineries and chemical plants
- Shipbuilding and shipyards
- Mining
- Utilities
- Steel mills and foundries
- General construction
- Maintenance and repairs
- Rigging
